

HELP EACH OTHER ON THE ROAD TO LEARNING.

The Graduated Driver's License (GDL) Parent Orientation Program is **now online**.

BACK TO
SCHOOL!

The Parent Orientation Program is a video designed to reduce the high accident and fatality rate of new teen drivers. This **free** online tool will explain the responsibilities and liabilities a parent/sponsor of a teen driver has under the GDL law. The more involved parents/sponsors are, the less likely teen drivers will be involved in a fatal crash. When parents/sponsors finish watching the online video, they will get a certificate, which the student can return to his or her driver's ed teacher.

The Parent Orientation Program is only about an hour long and will cover:

- DMV licensing, rules and regulations
- teen driver insurance coverage
- teen driver crash statistics

Tell your parents/sponsors to visit <http://DE.gov/gdlpop> to watch the video.
